

Actief aandeelhouderschap

Via stemmen en engagement als instrumenten van actief aandeelhouderschap kan Klaverblad entiteiten stimuleren om te veranderen, zodat hun activiteiten meer bijdragen aan de impact die Klaverblad met haar beleggingen wil realiseren.

Het uiteindelijke doel van actief aandeelhouderschap is om impact te creëren in de echte wereld. Klaverblad wil haar doelstellingen bereiken door ervoor te zorgen dat entiteiten gedragsverandering laten zien. Bovendien is Klaverblad ervan overtuigd dat entiteiten die hun gedrag veranderen als reactie op stem- en engagementinitiatieven van Klaverblad ook lagere ESG-risico's zullen hebben. Stem- en engagementinstrumenten vullen elkaar aan, waarbij stemmen uiteraard alleen mogelijk is bij bedrijven waarvan Klaverblad aandelen bezit.

Klaverblad is in het hele financiële spectrum een relatief kleine belegger waarbij onze invloed op het gedrag van bedrijven gering is. Wij laten echter wel onze stem horen over de doelen die wij hebben gesteld en willen bereiken. Voor ons is het belangrijk dat we onze krachten bundelen met andere partijen die een vergelijkbaar geluid willen laten horen.

Klaverblad doet mee aan stem- en engagementbeleid van de vermogensbeheerders en monitort actief of dit in lijn is met het Klaverblad-beleid. Als dit niet het geval is, dan gaan we hierover het gesprek aan met onze vermogensbeheerders. Daarnaast haken we actief aan bij gezamenlijke sector brede engagementinitiatieven, voor zover dit in lijn is met onze doelstellingen.
